What CRISC Is / Is Not

✗ CRISC is NOT Technical

- ✗ Programming or coding certification
- ✗ Firewall configuration or network setup
- ✗ Purely technical IT certification
- ✗ Only for audit professionals
- ✗ Memory-based exam with definitions

CRISC focuses on **business perspective**, not technical implementation details.

✓ CRISC IS Business

- ✓ Risk-based business decision-making
- ✓ Technology risk from business perspective
- ✓ Strategic risk management focus
- ✓ Cross-functional role (IT + Business)
- ✓ Judgment-based application exam

Validates **risk thinking** and business impact assessment.

Key Takeaway

CRISC is about understanding technology risk from a business perspective, not about technical implementation details.
